

SINCE 1943

Akron Steel Treating Company

336 Morgan Ave, Akron, Ohio 44311

About us:

Since our founding in 1943, our sole focus has been commercial heat treating services and metallurgical consulting. We stand by our core values of honesty, integrity, and respect and live them out in each project we are entrusted to be a part of. We serve a wide variety of industries from aerospace to agriculture, transportation to tool and die, and medical to military. The goal and commitment of our family owned business, of 80+ years, is unwavering quality control; every job, every time.
